## **We wanted to update you on Cliff and Angela Johnson**

As many of you know, the Johnsons had a pretty tumultuous ten-week stretch following Christmas. The last two weeks have been more of a positive trend for Angela's health. This trend has been a great relief to them because it has kept Angela away from Beaumont during this COVID-19 crisis. Please pray for this trend to continue. Pray for the new shift in her medications and fluids regime. Pray for her kidney numbers to stabilize. Especially in this season, pray for protection for their family as they have been following the strict stay-at-home guidelines. And join us in praying that when she goes into Beaumont for periodic outpatient treatments she is protected from this virus. Thank you for your support, encouragement, and love for the Johnson Family.

Grace and Peace,

Justin Warns and Bill Holbrook

## **Care**

Like so many of our amazing ministries, our Care Ministries have a new way to connect and support while staying home. Open share at Celebrate Recovery (CR) is launching by video. Now people can email [celebraterecovery@kensingtonchurch.org](mailto:celebraterecovery@kensingtonchurch.org) to connect with a leader and get placed in a group. As the weeks wear on, cabin fever is going to be setting in for all of us. That doesn't mean we need to let our relationships suffer. Our marriage team is available for mentoring, encouragement and tools by video. For more information and to get connected call 248.786.0678. This and so much more can be found on our home page of the [website](#).
