

Conflict Resolution Workshop – October 2020

Resources & Video Links

How Small Group Can Be A Safe Place For Political Discussions

This resource talks about how church can be a safe place to have political conversations and leaders play an important role in creating safe small group environments where group members have the freedom to share their political views while seeking to understand the positions of those sitting across from them.

Across the Spectrum

by Greg Boyd and Paul Eddy (2nd ed.)

This book was written to introduce students to the range of positions evangelicals take on various disputed topics. Each position is argued from the perspective of one defending the position and is therefore presented as persuasively as possible.

Tensions In Group Leadership

This video was shown during the workshop. In this video, Stuart Makinson discusses how to navigate five of the most common tensions faced by group leaders.
